Promoting a healthy urban forest

# Winter Tree Talk

## Agroforestry: Forests on Farmland

Planting trees on farmland can increase crop yield, improve soil, reduce erosion and diversify your farm.

Dr Andrew Gordon, professor of Forest Ecology at U of Guelph, will be discussing different methods of planting trees on farmland and the many benefits. Also, find out what other CW farmers are doing and what resources are available to help plant trees on your farm.

When: January 26<sup>th</sup> at 7:30 pm

Where: The Harris Room @ Elora Centre for the Arts

Cost: Free for members, \$5 otherwise

Reserve your seat by calling 519-846-0841 or e-mail [neighbourwoods@eloraenvironmentcentre.ca](mailto:neighbourwoods@eloraenvironmentcentre.ca) by
